Resume

Name: Agustín Toselli Elizalde

Date of birth: 21/10/1982

Address: Angel Carranza 1335, 7° D, Palermo , Cap. Fed,
Buenos Aires, Argentina

Cellphone: 153-475-2487

E-mail: agustintoselli@hotmail.com

Introduction

I have been working in quality assurance since 2007, most of the experience is on mobile but also have done plenty of testing related to flash applications in browsers. My main focus after all these years is on management, with plenty of experience in reporting, creating suitable processes to enhance productivity and communication with off shore clients and departments.

Currently I am QA Director, but have also been a QA Leader in the last 3 jobs I worked at, leading 8 – 14 testers teams. I have a lot of experience in iOS and can handle builds via xcode in case a quick test of code in trunk or a specific tag is needed. Experience in Android is also one of my strengths.

I believe teamwork is essential and like to keep close contact with each and everyone of the members of the team. I have also been in charge of hosting calls and delivering information straight to the clients. One of my mottos is "We are the eyes of the people who make decisions, our job (QA) is to provide the most accurate information in order to avoid time loss in the project."
